Glenbard South Celebrates Black History Month with an Interactive Calendar

February 1st marks the beginning of Black History Month(BHM), a celebration of the contributions that African Americans have made to this country in their struggles for freedom and equality. By recognizing and reflecting on these contributions, we will all have a deeper understanding of our Nation's history. To celebrate, a team from

South has created an interactive calendar with information & images about historical figures. Each weekday highlights a figure from a different subject area and the weekends have links to additional information for further exploration and inspiration.

INSTRUCTIONAL INSIDER

Today we would like to put a spotlight on our elective programs. We are proud to offer a wide range of options for students looking to learn more about any field out there. This year our [Enrollment Handbook](#) is more interactive with short informational videos about many of our programs and will help you to decide which courses are right for you. [Here is also a short video](#) with student testimonials and detailed information from our elective departments. Our enrollment season is wrapping up for the 2021-22 school year in the next few weeks. Now is the time to make your final course selections. Advanced Placement courses are a great way to prepare for the transition from high school to college. Don't leave South without at least taking one AP course, check out [this list](#). *Remember to challenge yourself, try new things, and explore. South is full of opportunities that are right for you!*

LIVE LIFE WELL WEEK

Glenbard District 87 students and staff will celebrate **Live Life Well Week 2021 from Feb. 15-19**. At a time when there is so much uncertainty in the world it can be challenging to take a moment to bring our attention to the positives in life. Live Life Well Week is an opportunity to take stock of what is important and show appreciation, and kindness which can help increase joy and improve symptoms related to stress and anxiety. This year's theme is "Ignite Your Superpowers: Gratitude, Kindness & Mindfulness".

Shifting our attention to **gratitude** allows respite from fear and allows for a moment to connect with others. While we may have no control over others, or the world today we do have control over ourselves. **Kindness** makes the world better for everyone. It starts with being kind to one's self and taking care of one's self. **Mindfulness** is the human ability to be fully present, intensely aware of where we are, and what we're doing, appreciating and focused on each moment for itself without judgement.

The awareness week begins on Monday, Feb 15, the Presidents' Day holiday, when the Glenbard community is asked to commit acts of kindness and volunteer. The ACTS

(Advocating Character Through Service) Committee has organized a list of opportunities to give back. During physical education classes, students will hear Scott Hill in a virtual presentation titled "A Journey to Recovery". Shaun Derik will also present "The H.A.R.D. Part: Succeeding in Tough Times" from his winning web-series. In a virtual format Derik will bring high energy, humor and a fresh perspective to all Glenbard students. Here are the rewards of reframing in these uncertain times. Using music, and anecdotal humor he will equip young people with the tools needed to thrive.

The community will have the opportunity to hear Shaun Derik in a live virtual performance at 7 p.m. Thursday, Feb. 18 as part of the Glenbard Parent Series. Derek will present "Being T.H.E.R.E : Five Ways to Actively Engage Young People" to inspire, and assist adults to be present when working with, loving and caring for today's youth. Details at glenbardgps.org. Thanks go to the PE/Health/Dr Ed staff and the clubs / teams students and adults that have organized events in support of Live Life Well Week 2021.

ALL ABOUT ATHLETICS

CONTACT DAYS

Many of our sports will be conducting contact days throughout the remainder of winter and spring season. In order to participate in contact days, a student will need to have a current physical, have consented to participate in the saliva surveillance program and will need to register through their sports Google Registration Form. The schedule for contact days is fluid as we work to build the facility schedule accounting for the amount of in season sports and those out of season sports looking to conduct contact days. Below you will find the head coach's name for sports that are currently or will be offering contact days. Coaches will be able to provide the link to register for their sport's contact days. A student must be registered through their coach in order to participate in contact days. A

student involved in an in season sport may participate in contact days only if it does not conflict with their in season practice or game schedule. The in season sport is to be the student's priority.

Girls Soccer: Kevin Berner kevin_berner@glenbard.org

It is possible that other sports may be added throughout the remainder of the school year. We will communicate information as it is available or that sport's coach will communicate to interested students.

SALIVA SURVEILLANCE PROGRAM AND ATHLETICS

Any student who chooses to participate in the athletic program must have parental consent to provide the weekly saliva sample. Hybrid A students will submit their sample on Monday, Hybrid B students will submit their sample on Tuesday and Remote students will submit on Wednesday when they come for practices/games. A student must submit a sample weekly. A student will be given a warning if they do not submit on their assigned day and should submit the next day. A student who fails to submit a weekly sample will be held out until we receive the next sample and get the result back. Remote students who have not received their kits will receive them on the first day they report for their activity.

SPECTATOR POLICY FOR INDOOR WINTER SPORTS

As we prepare to host contests in our winter sports season, we are working through the logistics of how we can accommodate spectators. Some of our facilities present some challenges for allowing spectators in a socially distant manner. However, we will continue to explore ways to allow for spectators to view events safely. Spectators will enter Door 4 (Main Entrance) for all events. Below is our current plan for each of the indoor sports held at Glenbard South.

Please note that fans will not be allowed at any of our away contests at this time. If information is provided to us regarding any streaming of those events, we will be sure to share that out to you.

Boys/Girls Basketball: At this time, we will only be allowing spectators for the varsity contests in the gym. These fans will only be from Glenbard South. There will be no visiting fans allowed. Each member of the varsity team will receive 2 tickets the day before each game to be distributed to parents/family. Spectators with the tickets will check in at the entrance table located outside the gym and provide their tickets to the ticket taker. Only those with a ticket will be admitted. As we get comfortable with this setup, it is our hope to allow fans in for the lower level games as well. Below you will find a link to the Glenbard South Indoor Sports Spectator Policy that includes all necessary protocols that spectators must follow in order to attend the games.

Badminton: We have designated the home matches of February 20th, March 1st, and March 15th as those where spectators may attend. Priority will be given to varsity athletes for these dates. These matches will be played in our Fieldhouse to allow for more space to be able to accommodate spectators. Each varsity athlete will be given two tickets the day before the match. Spectators will check in at the table outside the fieldhouse and provide their tickets to the ticket taker. Below you will find a link to the Glenbard South Indoor Sports Spectator Policy that includes all necessary protocols that spectators must follow in order to attend the matches.

Girls Gymnastics: We host only 2 home meets this season for gymnastics. We would like to use our first meet next week to gauge how we can safely accommodate fans in a socially distant way by seeing how the gymnastics balcony handles the participants, coaches, judges and staff without fans. This will allow us to see where we could best put limited fans in the safest spot possible for everyone. On Friday, February 26th for our home meet vs Geneseo, we will allow each senior member of the team to have 2 spectators attend. We will provide 2 tickets the day before the meet to the athletes. Spectators will check in at the table outside the balcony and provide their tickets to the ticket taker. Below you will find a link to the Glenbard South Indoor Sports Spectator Policy that includes all necessary protocols that spectators must follow in order to attend the matches.

LIVE STREAMING OF ATHLETIC EVENTS

The Athletic Department will be able to provide live streaming of most of our indoor home events. Glenbard South uses the National Federation of High Schools Network to live stream our contests. Use this link to access the Glenbard South page on the NFHS network: <https://www.nfhsnetwork.com/schools/glenbard-south-high-school-glen-ellyn-il>. On this page, you will be able to see a list of all events that we will be streaming. We will promote these broadcasts via our social media account (Twitter) @gbsathletics and our athletic website il.8to18.com/glenbardsouth. We have created a YouTube Channel for athletics that we will be able to stream events from that are not held in the gym. Once we have details we will share them out via social media and our athletic website. We know that it is disappointing that we cannot accommodate all spectators at this time. That is why we will be working to provide as many live stream broadcasts as we can during the season.
